

7200 1K PU SEALANT

ET/PU-7200B, 310ml black
 ET/PU-7200G, 310ml grey
 ET/PU-7200W, 310ml white

Product

1K very fast curing polyurethane based sealant and adhesive especially designed for automotive industry.

Substrates

Welded seams, flanges, car doors, baggage compartment, painted plastics.

Surface Preparation

Clean, dry and degrease the surface. Pre treat metal surfaces with anti-corrosive primer if needed.

Application Conditions

+5°C +35°C

Hardness shore

A 55-60 DIN 53505

Tensile strength

2.0± 0,1 N/mm² DIN 53504

Elongation at break

≥300% DIN 53504

Specific weight

1,26± 0,02gr/cc

Drying

Tack free time: 25-30min
 Over paintable: ≈ 45min
 Complete curing: up to 5mm in 24hr

Shelf life

12 months
